PROFESSIONAL EXPERIENCE

- Software Engineer, Golden Gate Innovations** ✍ 03/2025 – Present
- Led the front-end development of a vast-scale, **AI-driven platform**, building the entire user interface from scratch using **Next.js**, **Tailwind CSS**, and **shadcn/ui**.
 - Implemented real-time performance monitoring with **Sentry** to ensure a stable and high-quality experience for a live customer base.
 - Actively contributed to the full product lifecycle, from feature design discussions to deployment.
- Associate Software Engineer, Datumbrain** ✍ 12/2024 – 03/2025
Lahore
- Contributed to the development of a fintech platform, utilizing Go for back-end logic and PostgreSQL for database management.
- Associate Software Engineer, Exergy Systems** ✍ 06/2024 – 12/2024
Lahore, Pakistan
- Developed and maintained management systems using **JavaScript**, **React**, and **Next.js**, ensuring seamless front-end to back-end integration.
 - Built responsive user interfaces with **Tailwind CSS** and **MUI**, adhering to professional coding standards.
- Front-end Developer, Texagon** ✍ 07/2023 – 06/2024
Lahore, Pakistan
- Engineered user-centric interfaces for **AI and LLM-related SaaS products** using **React**, **Next.js**, and **TypeScript**.
 - Collaborated on international projects and participated in code reviews to enhance team knowledge and product quality.

PROJECTS

- AI-Powered Claims & Defense Litigation App (NextJs, Shadcn,Node, Python, OpenAI)** 03/2025 – Present
- Developed the **front-end** of the app that leverages AI/NLP for automating legal document review and case data analysis. Built a user-friendly **NextJs interface** and integrated **Sentry** for error monitoring and performance tracking.
- Fintech Application (Golang, PostgreSQL)** 12/2024 – 03/2025
- Developed two inter-communicating services using Golang and PostgreSQL. Implemented a **risk scoring system** based on keyword and region search to enhance fraud detection and decision-making.
- ExergyHRM (React, Javascript, Redux, Java Springboot, MUI, Tailwind CSS)** ✍ 06/2024 – 11/2024
- Developed the HR management system of the company. The features include attendance and time logged details and graphs, employee dashboard, rota module, shift assigning, leave approval and survey.
- SayIt : FYP (Javascript, React, MongoDB, Python,Flask, Tailwind CSS)** ✍ 12/2023 – 06/2024
- Built a clothing comparison platform** with price aggregation, review sentiment visualization (React bar chart), and an Admin Panel.**Published research** on sentiment analysis, evaluating ML (Logistic Regression, SVM, MLP, Naive Bayes) and DL (BERT, RNN-BiLSTM, CNN) models on original and augmented datasets (Back-translation, Adasyn, SMOTE).
- Build-AI (Typescript, React, Chakra UI , Python, FAST API)** ✍ 02/2024 – 05/2024
- Built a feature-rich web app utilizing **AI for personalized tasks** (fitness coaching, dream interpretation, chef, budget planner etc.) with Chakra UI for a seamless user experience across devices (mobile-friendly & responsive).

SKILLS

Technologies and Concepts — React JS, Next JS, Node, Express,Zustand, Tailwind CSS, Chakra UI, Git,Scrum and Agile
Languages — Python, C++, C, Javascript, Typescript, HTML

EDUCATION

Bachelor of Science in Computer Science, FAST NUCES ✍ Lahore, Pakistan
Relevant course work: Programming Fundamental, Object Oriented Programming, Data Structures, Design and Analysis of Algorithms, Database Systems, Artificial Intelligence, Software Design Analysis, Software Engineering, Data Science

GPA: 3.10
